Retraction Note: Journal of Fluorescence (2021) 31:703–712
<https://doi.org/10.1007/s10895-021-02693-5>

The Editor in Chief has retracted this article at the request of the authors. After publication, concerns were raised about the lack of details in the methods section to specify source of cell lines and their treatment, as well as some potentially

irrelevant references. The authors contacted the journal separately and stated that the data was provided by a third-party company and cannot be verified. The authors did not explicitly state whether they agree to this retraction.

Publisher's Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
